

RACAL 1998

Frequency Counter/Hi Stab Reference/Reference Multiplier/GPIB 1.3GHz

- Frequency Range 10 Hz to 1.3 GHz
- 9 Digit Resolution
- Stability is dependant on the Reference Oscillator
- Optional GPIB Interface

- Options Available:
 - 10 Reference frequency multiplier (1. 2. 5 or 10MHz input)
 - 04A High stability ovened oscillator
 - 04B High stability ovened oscillator
 - 04C Standard frequency reference
 - 04E High stability ovened frequency standard
 - 055 IEEE-488 Interface
 - Please call your local Livingston Office for configuration

- 10MHz internal timebase
- Single key nulling
